

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Berkshire Life Insurance Company

Incorporated 1851 of Pittsfield, Mass.

Reasons why it should be Preferred by those Desiring Insurance

It has the benefit of over fifty years' successful experience.

Its business is conducted on the mutual plan, thus enabling members to get their insurance at cost.

It has always paid large dividends, thereby making the cost of insurance low.

It maintains a reserve for the protection of policyholders, on the Massachusetts Standard, the highest basis required by the laws of any State.

It has a large surplus over the legal reserve and all other liabilities.

Its conditions as to travel and residence are very liberal.

Its policies are protected by the non-forfeiture laws of the Commonwealth of Massachusetts, which secure greater benefits to members than those of any other State.

It has always maintained a high reputation for just and liberal treatment of its members by promptly adjusting and settling all policy claims, a proof of which is the fact that no judgment has ever been rendered against it.

PUBLISHERS' ANNOUNCEMENT.

For thirty-five years THE INSURANCE YEAR BOOK has appeared annually, expanding year by year with the growth of the insurance business, and adding new features to its mass of information as the conditions demanded. The publishers therefore take pride in presenting the thirty-sixth annual edition, and in acknowledging the widespread recognition that has been accorded this publication, both in this country and abroad. Its present development is the result of a series of evolutions, similar to those through which the insurance business itself has passed.

The 1908 edition of the YEAR BOOK is issued in two volumes as heretofore, one being devoted to LIFE, CASUALTY and MISCELLANEOUS INSURANCE, and the other to FIRE and MARINE INSURANCE. Each volume contains the standard statistics regarding companies and their transactions that are necessary to perfect their history from year to year. These statistics are brought forward to include their transactions to December 31, 1907. The statistical tables are compiled from official data, the annual reports to the New York Insurance Department being used for those companies doing business in that State; for other companies the official data have been secured from the department reports of the States wherein they do business, or from other official sources. The utmost care has been taken to make these compilations complete and accurate.

An innovation which was introduced in the Fire and Marine Volume two years ago, whereby all the essential information concerning the standing, business, officers, directors, field men, etc., of each company is grouped together, is continued this year. The great amount of detailed information in this department caused an increase of about 300 pages in the size of the book, as compared with previous years.

The department relating to "Fire Departments and Water Supply," comprising over 500 pages, is more complete than ever before. It contains statistics showing the water supply and means for fire protection in five thousand cities and villages, the data having been brought down to date. These statistics are the result of about thirty years' experience in obtaining information and compiling the same, and form the fullest and most complete statement regarding the fire protective equipment of the numerous places that has ever been compiled.

Attention is invited to the list of prominent agents, which contains the names of over 40,000 persons representing insurance interests in various parts of the country. The abbreviations following the name in each case indicate the branches of insurance prosecuted by the agent. This is the most complete list of agents ever published, and will be found to be of great value to managers of companies.

Our thanks are due to the heads of Insurance Departments of the various States and to officers of companies for their courtesy and promptness in furnishing us with desired information.

Notes on Life Insurance

The Theory of Life Insurance Practically Explained

**An Elementary Treatise on the Principles Governing Life Insurance and
their technical application**

**Designed Especially for the use of Colleges, Students and all persons
interested in the subject.**

By EDWARD B. FACKLER, A.B., LL.B.

Fellow of the Actuarial Society of America.

In this work the author has attempted to describe clearly, and at length, the general principles underlying life insurance, and then to indicate to some extent their practical application in the business. The treatment of the subject is in general the same as in Gustavus W. Smith's "Notes on Life Insurance," now out of print, the first edition of which was printed in 1870, and which became a standard life insurance text-book.

A knowledge of arithmetic and only the most elementary algebra will be found sufficient to the life underwriter or agent student for an understanding of all the explanations and formulas in this book.

Notes on Life Insurance is printed from new type, best quality paper, and handsomely bound in cloth.

The Successful Agent

Practical Hints for the Seller of Life Insurance

The Principles of Insurance Explained so simply that any layman can readily understand

By **WILLIAM ALEXANDER**

In his introduction to "The Successful Agent" the author says.

The primary object of this book is to teach the agent how to sell life insurance—how to make money in his business.

Incidentally it will prove interesting and of value to the general reader, for the book explains life insurance in a way which any layman, as well as any youthful agent, can readily understand.

The old agent will find much in it that is new, and may be reminded of important truths that he has forgotten, but its chief value for him will be that he can utilize it in instructing his canvassers. He may also wish a few additional copies for important customers.

The book is handsomely printed on "featherweight" paper, from new, clear type, and is handsomely bound in cloth with title in gold. Copies are also bound in flexible leather for convenience in carrying about, also making a more showy book.

STATUTORY REQUIREMENTS.

SYNOPSIS OF THE STATUTORY REQUIREMENTS OF THE VARIOUS STATES AND TERRITORIES.

In the following pages will be found concise statements of the statutory requirements for the admission of life and miscellaneous insurance companies to do business in the respective States. In this brief form, the synopses are intended more as a hint than an actual guide, for it is not anticipated that any company in entering a State would be satisfied with anything less than the statutes themselves as their reliance as to conditions. Our summary, however, may be accepted as correct as far as it goes.

It has been our aim in preparing these synopses of the statutes to secure uniformity for all the States and to give the essential requirements in as brief a space as possible consistent with the statement of the facts. The synopsis for each State was sent to the supervising officer of such State and returned to us with his approval to date, or with such corrections as he deemed essential. We believe that the information given in this condensed form is as correct as it is possible to make it and will be sufficient to indicate to all interested the statutory requirements of the different States and Territories. Following the requirements are some notes culled from the statutes which will be of interest to life underwriters.

ALABAMA.

SUPERVISING OFFICER, A. C. SEXTON, DEPUTY INSURANCE COMMISSIONER, MONTGOMERY.

Preliminary Documents.—Copy of charter must be filed with Insurance Commissioner; also copy of annual statement showing condition of the company December 31 preceding. Must furnish a sworn certificate that it has at least \$100,000 in approved securities, consisting of bonds of home State of company, State of Alabama, or United States bonds or notes or bonds secured by mortgages on real estate for double the amount on deposit with the proper officer of some State for the protection of all its policyholders.

Attorney.—The Insurance Commissioner must be appointed attorney to accept service of legal process.

Valuation of Policies.—Valuation to be made yearly upon the Actuaries' or American Experience Tables, with interest at four per cent; but the valuation of the Insurance Department of a foreign company's home State may be accepted.

Annual Statements.—Must be filed on or before March 1, showing condition of the company December 31 preceding.

Agents.—Agents must procure certificates from Insurance Commissioner to be re-

newed annually in January. Any person soliciting or otherwise transacting the business of insurance is held to be an agent of the company, not of the assured.

Examinations.—The Commissioner is required to examine domestic companies once in two years, or upon the request of five or more stockholders. He may also examine other companies whenever he deems it prudent, or, if he has occasion to believe they have violated any law or are in an unsound condition. He must, however, accept the sworn published statement of a life insurance company made to and approved by the Commissioner or a like officer of the State in which it is incorporated.

Impairment.—When the capital is impaired to the extent of twenty per cent, Insurance Commissioner may notify company to make good the impairment within sixty days.

Fees.—The Insurance Commissioner shall collect from each company filing copy of charter or deed of settlement and financial statement \$101, and same amount with each annual statement thereafter for the privilege of carrying on its business in the State of Alabama; for each certificate or renewal thereof to an insurance agent or solicitor, \$3.50; for copies of any paper on file or deposit with the Insurance Commissioner, or in his office, ten cents per hundred words. Provided, that the Auditor shall pay, upon vouchers approved by the Governor, out of this fund alone the expenses of the Insurance Department. Reciprocal laws in force.

Misrepresentation.—No misrepresentation, written or oral, in the negotiation of a contract or in the application or proofs of loss, shall defeat or void the policy unless such misrepresentation is made with actual intent to deceive, or unless the matter misrepresented increases the risk of loss. No life insurance company shall contest a claim under any policy of insurance on the plea of fraud or irregularities in application after two annual premiums payments have been made on policy, but must pay the full amount of policy within sixty days after proofs of death have been received at the home office of the company in the United States.

Rebates.—Prohibited under penalty of from \$100 to \$500 fine.

Licenses.—Every company must pay to the Insurance Commissioner not later than March 1 of each year \$101 for a license to do business, and every agent must have a license.

Taxes.—"All companies must state the total amount of gross premiums received, designating the amount received in this State, and shall at the same time pay to the Insurance Commissioner the sum of \$2, effective January 1, 1908, upon each \$100 of said gross premiums so received in this State."

ADDITIONAL NOTES FROM THE STATUTES.

Application of Laws.—The provisions of the laws apply when the risk is taken, or any insurance business transacted in the State, whether policies are signed in or out of the State. Policies incontestable after two annual premiums have been paid.

Company Defined.—The term "company" used in the laws includes every company, corporation, association, or partnership organized for the purpose of transacting the business of insurance.

MISCELLANEOUS CASUALTY COMPANIES.

Domestic companies other than fire or life must have \$50,000 capital. Domestic, fidelity and surety companies, \$100,000 capital, and must deposit with the State \$25,000 in approved securities, and upon entering other States \$50,000 additional. Foreign fidelity and surety companies must have \$250,000 capital and \$100,000 on deposit with the proper official of their home State, and \$50,000 on deposit with the State of Alabama, and comply with the laws relating to other State companies.

Companies other than fire and life must retain as reserve fifty per cent of the premium on risks having not more than one year to run, and companies writing liability insurance must maintain an additional reserve fund, known as the "liability reserve," to an amount not less than \$300 for each suit pending against such company's policyholders, and \$700 when such suit is appealed to a higher court by the defendant.

Surety Companies.—No surety company shall become sole surety on the bond of the State Treasurer, but may become co-surety, in which event its credit or property shall not be estimated to exceed \$100,000.

Plate Glass and Live Stock.—Plate glass and live stock companies required to have \$50,000 capital. All other companies must have \$100,000 capital.

ARIZONA.

SUPERVISING OFFICERS: W. F. NICHOLS, SECRETARY OF TERRITORY, PHOENIX;
JOHN H. PAGE,* TERRITORIAL AUDITOR, PHOENIX.

Preliminary Documents.—Company must file with the Secretary of the Territory copies of its articles of incorporations and its appointment of an attorney, and a statement giving the name and location of the company, amount of capital stock, assets and net surplus, and receive from him a certificate of authority to do business. Every company must deposit with the Territorial Treasurer a bond, with two or more resident sureties, in \$15,000, for the protection of policyholders in the Territory, or \$15,000 in Territorial bonds. Corporate bonds accepted.

Attorney.—Company must appoint an agent to accept service of legal process in each county where it does business and file notice of such appointment with the County Recorder of each county.

Funds.—No requirement.

Valuation of Policies.—No provision.

Annual Statements.—Annual statements must be filed with the Secretary of Arizona in the month of March of each year.

Agents.—Agents must obtain a certificate of authority to do business from the Secretary of Arizona. Any person acting in any way for an insurance company is considered an agent of such company and subject to the regulations and penalties of the insurance act.

Examinations.—No provision.

Fees.—To the Secretary of Arizona: For filing statement, \$5; issuing certificate of authority, \$5; issuing certificate to agent, \$2; for filing articles of incorporation, \$5; for printing statement in newspaper, \$2.50.

Licenses.—No provision.

Misrepresentation.—No misrepresentation in application deemed a defense unless material to the risk. In suits brought on ground of misrepresentation, company shall, before trial, deposit in court, for the benefit of plaintiffs, the premiums received on policies under suit.

Taxes.—Upon filing the annual statement, a verified statement must also be submitted, showing the total premium receipts collected within the Territory for the period lapsing since the filing of the previous statement. Such statement must be published in at least one newspaper in the Territory; thereupon the Secretary of Arizona will levy a tax of two per cent upon such premium receipts, which shall be paid to the Secretary of Arizona before certificate of authority can be renewed. This tax to be in lieu of all other taxes and licenses.

Penalties.—If any insurance company, its agents or attorneys, shall solicit insurance or shall issue a policy without having complied with the laws of this Territory, said company, its agent or attorney, shall be guilty of a misdemeanor. Punishment for misdemeanor is fine not exceeding \$300, or imprisonment in County Jail not exceeding six months, or both.

Par. 809, Civil Code, Revised Statutes of Arizona, 1901, was, under date of March 21, 1907, incorporated in the law governing life companies. (Sec. 49.) "Every contract or policy of insurance hereafter made by any person or corporation organized

* Matters relating to domestic companies.

under the laws of this territory, or under those of any other state or country, with and upon the life of a resident of this territory, and delivered within this territory shall contain unless specifically contracted between the insurer and the insured for tontine insurance or for other term or paid-up insurance, a stipulation that when, after three full annual premiums shall have been paid on such policy, it shall cease or become void solely by the non-payment of any premium when due, its entire net reserve by the American experience mortality, and interest at four and one-half per cent yearly, less any indebtedness to the company on such policy, shall be applied by such company as a single premium at such company's published rates in force at the date of original policy, but at the age of the insured at the time of lapse either to the purchase of non-participating term insurance, for the full amount insured by such policy, or upon the written application by the owner of such policy, and the surrender thereof to such company within three months from such non-payment of premium, to the purchase of a non-participating paid-up policy, payable at the time the original policy would be payable if continued in force; both kinds of insurance to be subject to the same conditions except as to the payment of premiums, as those of the original policy. It may be provided, however, in such stipulation, that no part of such term insurance shall be due or payable unless satisfactory proofs of death be furnished to the insuring company within one year after death, and that if death shall occur within three years after such non-payment of premium, and during such term of insurance, there shall be deducted from the amount payable the sum of all the premiums that would have become due on the original policy, if it had continued in force. If the reserve on endowment policies be more than enough to purchase temporary insurance as aforesaid, to the end of the endowment term, the excess shall be applied to the purchase of pure endowment insurance, payable at the end of the term if the insured be then living. If any life insurance corporation or company shall deliver to any person in this territory a policy of insurance upon the life of any person residing in this territory not in conformity with the provisions of this section, the right of such corporation or company to transact business in this territory shall thereupon and thereby cease and terminate, and any district court of this territory, upon the fact appearing that any company or person has violated the provisions of this section, shall enjoin such company or person from doing or transacting any insurance business within the territory, either as principal or agent. the Attorney-general, district attorney or any person interested, may be the party plaintiff in such action."

MISCELLANEOUS CASUALTY COMPANIES.

There are no special provisions governing casualty and miscellaneous companies other than life, fire and marine. These classes of insurance come under the laws of Arizona relating to foreign insurance corporations. Personal accident and health, burglary, credit, liability, live stock, plate glass, steam boiler, title and mortgage guarantee companies are governed by same laws as life, fire and marine companies.

Surety Companies.—Must file with the Governor, copy of charter or articles of incorporation and financial statement. Cash capital required, \$100,000. In January, April, July, and October of each year a financial statement must be filed with the Governor. Fidelity and surety companies, doing business as such, exclusively, are not required to report to this department. MISCELLANEOUS CASUALTY COMPANIES.

Must report same as life companies, and file the same preliminary documents as life companies. Surety companies must have a capital of \$250,000, and have at least \$100,000 deposited with some State official for the protection of all policyholders. Reinsurance reserve to be fifty per cent of gross premiums on insurance in force. Annual statement filed in January. Every foreign surety company shall pay \$10 for filing copy of charter; \$10 for preliminary statement, and \$10 for each annual statement thereafter. Every such foreign company and each agent of same shall pay the same fees and taxes as are imposed by the home State of such company upon companies and agents of this State.

Every accident company shall maintain a reserve on such business equal to the unearned portion of the gross premiums charged.

Liability companies shall maintain, in addition to the reserve for accident companies, a reserve computed as follows:

For the purpose of computing this reserve, each such company which has been engaged in liability underwriting for five or more years shall, on or before the first day of July in each year, render to the Insurance Commissioner a statement in writing of its business transacted in the United States, which shall show separately for each of the first eight calendar years, or any part thereof during which it has transacted such business, of the period of ten years next preceding the thirty-first day of December of the year in which the statement is made: (1) The number of policies issued and the premiums received and earned under all its forms of liability policies, regardless of the date at which such premiums were collected; (2) the number of persons reported injured under all its forms of liability policies, whether such injuries were reported to the home office of the company or to any of its representatives, and whether such injuries resulted in loss to the company or not; (3) the amount that, on or before the thirty-first day of December next preceding the year in which the statement is made, had been paid on account of or in consequence of all injuries so reported, including therein all payments and all amounts reserved on suits or actions arising from such injuries; (4) the number of suits or actions under such policies on account of injuries reported which have been settled either by payment or compromise; (5) the amount paid in settlement of such suits or actions on or before the thirty-first day of December next preceding the year in which the statement is made, including therein all payments made on account of or in consequence of injuries from which the suits arose, whether prior to or later than the date when the suits were brought.

Method of Computing Outstanding Losses.—Every such company shall in its financial statements hereafter made in this State, use the experience so ascertained for computing its outstanding losses under all its forms of liability policies, irrespective of the date when the policies were issued. The average cost per suit of settling such cases, as computed by the data required in the preceding section, shall be multiplied by the number of suits or actions pending on account of injuries reported prior to eighteen months previous to the date on which the condition of the company is to be ascertained and shown, which suits

or actions are being defended for or on account of a holder of any such policy; also the average cost on account of each injured person, determined as aforesaid from the company's experience, shall be multiplied by the number of injuries reported within the eighteen months prior to making the statement of the company's condition, whether such injuries were reported to the home office of the company or to any of its representatives. From the sum of these two products so ascertained there shall be deducted the amount of all payments made on account of or in consequence of said injuries reported within eighteen months, the amount so deducted to be taken as of the date at which said statement is made. The sum remaining after making this deduction shall be charged as the liability of the company on account of outstanding losses. The Insurance Commissioner may further require of each such company such additional reserve on its liability business as will make its total loss reserve, including losses or expenses incident thereto already paid, for the four years next preceding the thirty-first day of December of the year in which the statement is made, sufficient to provide for the same average loss ratio as is shown by its experience reported under sub-divisions one and three of section two of this act for the period of six years, or any part thereof, during which it has transacted such business, constituting the first six years of the period of ten years next preceding the thirty-first day of December of the year in which the statement is made.

Reserves of Companies Which Have Not Been Engaged in Liability Underwriting for Five Years.—Any company which now issues, or shall hereafter issue, liability policies as aforesaid, and which has not been engaged in liability underwriting for five years, shall, nevertheless, until such time as it may be able to state its experience as required in section two, make and maintain the reserves hereby required upon the basis of the averages of all the other companies stated as required by this act, which averages shall be furnished by the Insurance Commissioner to each such company, on or before the first day of December in each year.

[Enactments of 1907.]

On April 16, 1907, the Governor signed the Hillery bills, the first of which provides that no domestic life insurance company issuing participating policies shall pay dividends aggregating more than ten per cent of the par value of its stock in any year; that no such company shall have stock of greater par value than \$2,000,000, and that upon dissolution the stockholders shall have not more than twice the par value of their stock, except that nothing in this act is to bar stockholders from participating where a company has now accumulated a surplus equal to at least twice the amount of its stock.

The second makes accumulated profits on deferred dividend policies of a domestic life insurance company a liability; requires an annual accounting and apportionment thereof and prohibits the use for any other purpose of funds so apportioned and set aside for the benefit of policyholders.

The third defines provisions which shall or shall not be contained in policies of life insurance of a domestic company and policies issued to residents of New Jersey by any foreign life company. No form of policy is to be issued until it has been filed with the Commissioner of Banking and Insurance, and the Commissioner may disapprove any form offered if decided contrary to law. No salary to any officer or director, nor any salary exceeding \$5000 a year is to be paid to any person unless with the approval of the board of directors, and companies must file a voucher for all sums expended in excess of \$100. This act provides that before September 7, 1907, all domestic companies shall elect whether they will carry on a participating or non-participating business, and after December 31, 1907, they shall engage only in the kind of business they have elected to do.

Another bill prohibits insurance companies from making campaign contributions.

Another provides for the formation of mutual life companies with a temporary capital stock of not less than \$100,000. The holders of such temporary capital stock may elect a bare majority of the board of directors, the rest to be chosen by the policyholders. It amends the investment section and forbids life companies to purchase more than twenty per cent of the stock of any corporation, except a municipality, and limits the stock holdings in any one company to two per cent of the assets of the life company, and the bond holdings of a corporation to ten per cent of the assets. Any company holding a larger amount of stock or bonds in another corporation is to divest itself of the excess within five years, unless upon a petition to the Chancellor further time is granted. Life

companies are also prohibited from lending more than two per cent of their assets on the stock or ten per cent on the bonds of any corporation. The act also limits the deposits of life companies in banks, providing that not more than three per cent of the assets shall be kept in one bank for a period exceeding ten days. No purchase shall be made of stock of any company which has not regularly paid dividends for at least five years preceding such investment.

The Governor also signed the bill empowering the Chancellor to appoint three members of the board of directors of each domestic stock life insurance company, who are to be policyholders, but not stockholders.

The deposits in any bank for savings which are due depositors, the accumulations in any domestic life insurance corporation, held for the exclusive benefit of the insured, other than real estate and stocks now liable for taxation; the accumulations of any incorporated co-operative loan association upon the shares of such association held by any person; and personal property of any corporation, person, company or association transacting the business of fire, casualty or surety insurance in this State, equal in value to the unearned premiums required by the laws of this State, or the regulations of its Insurance Department.

Franchise Tax on Insurance Corporations.—The following amendment to the tax law in relation to franchise taxes of insurance corporations became a law March 16, 1901:

An annual State tax for the privilege of exercising corporate franchises or for carrying on business in their corporate or organized capacity within this State equal to one per centum on the gross amount of premiums received during the preceding calendar year for business done at any time in this State, which gross premiums shall include all premiums received during such preceding calendar year on all policies, certificates, renewals, policies subsequently canceled, insurance and reinsurance during such preceding calendar year, and all premiums that are received during such preceding calendar year on all policies, certificates, renewals, policies subsequently canceled, insurance and reinsurance executed, issued or delivered in all years prior to such preceding calendar year, whether such premiums were in the form of money, notes, credits, or any other substitute for money, shall be paid annually into the Treasury of the State, in the year nineteen hundred and five, on or before July 1, and in all subsequent years on or before the first day of June by the following corporations:

1. Every domestic insurance corporation, incorporated, organized or formed under, by, or pursuant to a general or special law.

3. Every insurance corporation, incorporated, organized or formed under, by, or pursuant to the laws of any State without the United States, or of any foreign country, except such a corporation doing a life,* health or casualty insurance business, and doing business in this State; but the tax on gross premiums of a corporation so incorporated, organized or formed and doing a fire or marine insurance business within the State shall be equal to five-tenths of one per centum. This section does not apply to a fraternal beneficiary society, order or association, a corporation for the insurance of domestic animals, a town or county co-operative insurance corporation, nor to any corporation subject to the supervision of or required by or in pursuance of law to report to the Superintendent of Banks; but this section does apply to an individual, or partnership, or association of underwriters known as Lloyds, in so far as corporations doing the same kind of insurance business are subject to its provisions. The taxes imposed by this section shall be in addition to all other fees, licenses or taxes imposed by this or any other law, except that in assessing taxes under the reciprocal provisions of section 33 of chapter 38 of the general laws, credit shall be allowed for any taxes paid under this section. Penalties.—Company failing to file annual statement as required by law subject to a penalty of \$500, and \$500 additional for each month it remains in default. The statute prevents a life company from making any discrimination between insureds of the same class and of the same expectation of life, either in the amount of premiums charged or in return of premium dividends or other advantages. Any person violating this provision of the law shall be deemed guilty of a misdemeanor, and on conviction thereof the Superintendent is required to revoke his certificate of authority, and is prohibited from issuing another to him for the term of three years from the date of his conviction.

Sec. 1. No foreign insurance company shall be granted a license or permitted to do business in this State until it shall have complied with the laws of this State, including the deposit of such collateral or indemnity for the protection of its patrons within this State as may be prescribed by law, and shall agree to pay all such taxes and fees as may, at any time, be imposed by law or act of the legislature on foreign insurance companies, and the refusal to pay such taxes or fees shall work a forfeiture of such license.

Sec. 2. Until otherwise provided by law, all foreign insurance companies, including surety and bond companies, doing business in the State, except fraternal insurance companies, shall pay to the Insurance Commissioner for the use of the State an entrance fee as follows:

Each foreign life insurance company per annum, \$200; each foreign fire insurance company per annum, \$100; each foreign accident and health insurance company, jointly per annum, \$100; each surety and bond company per annum, \$150; each plate glass insurance company (not accident) per annum, \$25; foreign live stock insurance companies per annum, \$25.

Until otherwise provided by law, domestic companies excepted, each insurance company, including surety and bond companies doing business in this State, shall pay an annual tax of 2 per cent per annum on all premiums collected in this State, after all cancellations are deducted, and a tax of \$3 on each local agent.

Sec. 3. The revenue and tax provisions of this constitution shall not include, but the State shall provide for the following classes of insurance organizations not conducted for profit and insuring only their own members: Farm companies, insuring farm property and products thereon; trades insurance companies, insuring the property and interest of one line of business; fraternal, life, health and accident insurance in fraternal and civic orders, and in all of which the interests of the members of each respectively shall be uniform and mutual.

Sec. 4. All fees collected by the Insurance Commissioner shall be paid to the State Treasurer monthly.

The Constitution specifically provides the annual entrance fees of live stock, life, fire, accident and health, surety and bond, and plate glass companies, and where companies transact more than one line of insurance, they are charged the entrance fee specifically set out in the Constitution for the different classes of insurance transacted, but if they desire to transact any class of insurance not specifically covered by the provisions of the Constitution, they are not charged an entrance fee for that line; for instance, a company writing personal accident and health insurance, also burglary and steam boiler insurance, is charged only the entrance fee for accident and health, \$100; but if it desires to transact plate glass insurance, it would be charged an additional \$25, inasmuch as the Constitution provides a specific fee for that class of insurance.

ASSESSMENT ASSOCIATIONS AND FRATERNAL ORDERS.

The following brief synopses of the laws of the different States regarding the admission of assessment associations and fraternal orders will indicate the special requirements. For names of supervising officers see list of State officials.

ALABAMA.

The law of Alabama distinguishes between mutual aid associations and assessment life associations. Mutual aid, benefit and industrial companies or associations are defined as those issuing insurance against contingencies such as the birth or death of a child, upon marriage, death, sickness, or physical disability. The association's charter, together with the constitution, by-laws and certificate of membership or policy must be submitted to the Insurance Commissioner; a membership of 500 bona fide members must be maintained, and from \$1000 to \$5000, according to amount of policy, weekly benefit or death indemnity, paid in as a benefit fund. Said fund may be in cash or satisfactory securities deposited with the Department. Annual reports to be filed by March 1. Tax, one per cent on net premiums and a license fee of \$20; Alabama companies are allowed to set off against said licenses and taxes such amounts as may be paid as tax upon property of such company. The Insurance Commissioner shall act as attorney for service. The Insurance Commissioner has supervision of mutual aid and assessment life associations. Assessment companies must have 100 members and \$250,000 insurance in force to procure a charter. A deposit of \$5000 with the State is required upon receipt of charter, and \$1000 thereafter for each million at risk up to \$100,000. No policyholder can be held liable for losses or liabilities of an association by reason of his being a member thereof. Assessment companies of other States must have on deposit in the State where it was incorporated at least \$100,000 for the benefit of all the policyholders. Annual statements must be filed on or before March 1, showing the condition of the company on December 31 preceding, and its transactions for the year. Fee, \$101. The amount of every contingency insured against must be specifically stated in the policy.

Few requirements are made of fraternal orders by this State. All that is required of them is that they furnish certificate showing full compliance with the laws of their home State and that they maintain in this State a lodge system with ritualistic form of work.

ARIZONA.

Associations may be formed for the purpose of paying to the nominee of any member a sum, upon the death of said member, not exceeding three dollars for each member of such association. No such association shall exceed in number 5000 person. Such association formed by filing a verified certificate in the office of the Recorder of the County in which the principal place of business in Arizona is situated, and filing a like certificate in the office of the Secretary of Arizona; such certificate shall state the general objects of the association, its principal place of business, and the names of the officers elected to hold office for the first three months, and shall be signed by the said officers and verified by at least three of them.

ARKANSAS.

Arkansas has no special laws relating to assessment associations, but every insurance company without capital, seeking to do business in the State, is required to execute a bond in the sum of \$20,000 for the protection of policyholders, to be approved and filed with the Auditor of State. Fraternal orders file a bond of \$10,000.

CALIFORNIA.

Preliminary Documents.—Each association must deposit with the Insurance Commissioner a certified copy of its charter, or other instrument, required by its home authorities; a statement under oath of its business for the preceding year; an appointment of a general agent, service upon whom shall bind the corporation; a certificate that for the next preceding twelve months it has paid in full the maximum amount named in its contracts of insurance; copies of its contracts of insurance and applications, which must show that the liabilities of its members are not limited to fixed premiums; and evidence satisfactory to the Insurance Commissioner that the corporation has accumulated a fund

equal to that required of like corporations in this State, constituting a reserve or surplus fund, held in trust for the benefit of its contract holders.

Annual Statements.—Annual statements must be filed with the Commissioner on or before February 1, showing the condition of the association on December 31 preceding, and also on or before January 15, showing business done in California only. Statements must be published in daily newspaper.

Fees.—For filing charter, \$30; filing annual statement, \$20; other papers, \$5 each; license to agent, \$1.

Taxes.—Governed by reciprocal legislation. Assessment companies charged \$70 for admission.

Fraternal Orders.—The law relating to assessment associations does not apply to secret or fraternal societies, lodges or councils which conduct their business and secure membership on the lodge system exclusively.

Assessment accident associations shall, before being licensed, deposit with the State Treasurer \$1,000, or, in the case of a foreign association, have such sum on deposit with the proper official of its home State.

No organization furnishing life or casualty insurance upon the mutual or assessment plan, organized under the laws of any State or Territory, District of Columbia or any foreign country, shall transact any business in this State until it has filed with

the Commissioner of Insurance a copy of its articles of incorporation, constitution and by-laws; application for membership; certificate of membership, literature, etc.; certificate of authority of its home State; appoint the Commissioner of Insurance attorney for service.

Foreign associations pay an annual license fee of \$25. Domestic associations having State grand lodge or council are not required to pay this fee.

WYOMING.

Preliminary Documents.—Association must secure authority to do business from the Insurance Commissioner, and must file with him a certified copy of its charter, a copy of its statement for the preceding year, and a verified certificate that an ordinary assessment upon its members is sufficient to pay its maximum certificate of membership to the full limit named therein; also copies of its certificate of membership, application and by-laws, and must designate the Auditor of State to accept service of legal process. A certificate must be filed accepting the State constitution.

Annual Statements.—Annual statements must be filed on or before April 1, showing the condition of the association December 31 preceding.

Fees.—Payable in advance. For issuing license, \$50; filing annual statements, \$25; certificate accepting State constitution, \$2.50; agents' license, \$1; copies of papers on file, 15 cents per folio; certifying same, 50 cents; examination of companies, actual expenses incurred; publication of condensed statement, \$12; publication of compliance, \$4.

Policy Conditions.—All companies, corporations, societies or associations—except fraternal orders—must have the words "assessment insurance" printed in large bold type, not less than half an inch high, across the face of every application and policy used in the State.

Penalties.—For neglect to make annual statement within the specified time, license to do business will be revoked; or doing business without a license, or for soliciting business for an unauthorized association, subjects the offender to a fine of not less than \$50 nor more than \$1000, or imprisonment in the county jail not less than thirty days nor more than one year, or both fine and imprisonment, in the discretion of the court.

Taxes.—There is imposed upon each and every insurance company transacting the business of insurance within this State a tax of two and one-half per centum per annum upon the gross premiums received by it for insurance within this State from the beginning until the close of the calendar year ending on the thirty-first day of December. Such tax shall become due and payable from the first day of February to the thirtieth day of March in each year.

Fraternal Orders.—Association must do business on the lodge plan, and file a certified copy of its charter and by-laws; an acceptance of the State constitution; a copy of its annual report of the preceding year; and appoint the Auditor its attorney to accept legal process. Fees for filing preliminary papers, \$15; annual statement, \$10; acceptance of State constitution, \$2.50. Annual reports must be made on or before March 1.

CANADA.

Preliminary Documents.—Company must file certified copy of its charter, act of incorporation or articles of association, a statement of its condition and affairs on December 31 preceding, or up to the usual balancing day of the company, and power of attorney to its chief agent in Canada.

Deposits.—A Canadian association must be licensed, and must make a deposit of \$50,000. A foreign corporation or association must be licensed by the Minister of Finance, but before receiving a license must deposit with him the sum of \$50,000. License entitles it to do business so long as it continues to pay its losses to the full limit named in the certificate. Other additional deposits may be required by the Minister of Finance upon a report of the Superintendent of Insurance, approved by the Treasury Board.

Annual Statements.—Annual statements of Canadian business of companies incorporated elsewhere than in Canada must be filed with the Superintendent of Insurance on or before March 1, showing the business transactions of the preceding year ending December 31, and statement of the general business on or before June 1, verified in the same manner as statements of ordinary life companies. Canadian companies must file their full statements on or before March 1.

Fees.—The Superintendent is empowered to assess all insurance companies to defray the expenses of his office pro rata upon gross premiums received in Canada during each year. Such assessment to be paid on demand of the Superintendent.

Penalties.—Neglect to file annual statements subjects the offender to a penalty of \$10 for each day during which such company remains in default. Transacting business for an unauthorized company subjects the offender to a penalty of not less than \$20 nor more than \$50 for the first offense; for the second offense imprisonment, without the option of a fine.

MISCELLANEOUS CASUALTY COMPANIES.

Personal accident and health, burglary, credit, fidelity and surety, liability, live stock, plate glass, steam boiler, title and mortgage guarantee companies must file the following:

Preliminary Documents.—Certified copy of charter, act of incorporation or articles of association, a statement of condition and affairs on December 31 preceding or up to the usual balancing day of the company, and power of attorney to its chief agent in Canada.

Deposits.—The Treasury Board shall determine in each case what deposit shall be required to be made with the Minister, and the sections of the Insurance Act which shall apply to such company.

Annual Statements. Annual statements of Canadian business of companies incorporated elsewhere than in Canada verified by the oath of the chief agent in Canada must be filed with the Superintendent of Insurance on or before March 1 in each year, showing the company's condition and affairs as at December 31 preceding, and its income and expenditure for the year ending on that date. Statements of its general business must be filed on or before June 1, verified by the affidavit of the president, vice-president or managing director and the secretary or actuary. Canadian companies must file their full statements on or before March 1.

Fees.—Companies are required to contribute towards defraying the expenses of the office of the Superintendent of Insurance pro rata upon gross premiums received in Canada during each year.

Penalties.—Neglect to file annual statements subjects the offender to a penalty of \$10 for each day during which default continues. Transacting business for an unlicensed company subjects the offender to a penalty of not less than \$20 nor more than \$50 for the first offense; for the second offense, imprisonment without the option of a fine.

INSURANCE IN CANADA.

WHAT IS REQUIRED OF COMPANIES DOING BUSINESS IN THE DOMINION.

THE several acts passed by the Canadian Parliament relating to insurance in the Dominion were amended and consolidated by a general statute, passed during the session of 1886, which, together with amendments made in 1894, 1895 and 1899, contains all the existing provisions for the regulation and supervision of insurance companies carrying on business in Canada. Under this act no company can do business in the Dominion without obtaining a license from the Minister of Finance, or being registered in the office of the Superintendent of Insurance. In order to obtain such a license every company must deposit with the Receiver General as follows:

Canadian Fire and Inland Marine Companies.....	\$50,000	Canadian Inland Marine Companies.....	\$50,000
Foreign Fire and Inland Marine Companies.....	100,000	Foreign Inland Marine Companies.....	100,000
Canadian Fire Companies.....	50,000	Life Insurance Companies, both Canadian and Foreign.....	50,000
Foreign Fire Companies.....	100,000	Assessment Life Companies, both Canadian and Foreign.....	50,000

It is provided, however, that in case of any such company incorporated elsewhere than within Canada when its liabilities to policyholders in Canada, including the full reserve or reinsurance value of all its Canadian policies, exceed its assets in Canada, then the company will be required to make good the deficit by adding to its deposits with the Receiver General, or by creating a special trust in the hands of two or more persons resident in Canada.

Companies doing ocean marine business exclusively are not subject to the act.

Companies other than life, fire or marine, in order to do business in Canada are required to obtain a license from the Minister of Finance, and the Treasury Board must in each case decide what shall be the amount of deposit.

Every company is required to file in the office of the Minister of Finance, annually at the beginning of each year, a sworn statement of its condition and affairs.

The policy liabilities of life insurance companies doing business in Canada, under policies issued previous to January 1, 1900, are to be valued according to the Tables of Mortality of the Institute of Actuaries, at $4\frac{1}{2}$ per cent interest, until January 1, 1910. From January 1, 1910, to January 1, 1915, these policies are to be valued by the same tables of Mortality, at 4 per cent interest; and after January 1, 1915, by the same tables, with interest at $3\frac{1}{4}$ per cent. All policies issued on or after January 1, 1900, are to be valued according to the Tables of Mortality of the Institute of Actuaries, with interest at $3\frac{1}{4}$ per cent.

Toward defraying the expenses of the office of the Superintendent of Insurance, a sum, which from fire and marine companies must not exceed eight thousand dollars, shall be annually contributed by the companies, which sum shall be assessed *pro rata* upon the gross premiums received by each during the preceding year, such sum to be paid upon the issue of the annual license.

LIFE INSURANCE HISTORY.

YEARLY BUSINESS OF ACTIVE UNITED STATES LIFE INSURANCE COMPANIES FROM DATE OF COMMENCING BUSINESS.

The first State insurance department in the United States was established by act of the Massachusetts Legislature in 1855, and since that time annual reports have been issued by an increasing number of departments, and with growing completeness and fullness of detail, until at the present time nearly every feature of the insurance business is fully reported and brought under review for the enlightenment and benefit of the general insuring public.

There are now over one hundred and seventy active level premium American life insurance companies that report to the various insurance departments. Of these sixteen were transacting business before the establishment of State supervision, and consequently no public official record has been kept of their transactions during their earlier years. In the first years of State supervision the reports were, as was natural, very incomplete as to several matters of detail, which experience has since shown ought to have been more fully reported in order to insure a harmonious and complete record.

Occasions often arise in the business experience of a company when it is necessary to refer back to the business of the earlier years of its own or some other company's existence. Before the compilation of the statistics in the following pages was made there was no way of doing this, except by long and laborious researches through old insurance reports, insurance journals and antiquated records. Knowing the tediousness of these researches by experience, at great pains and expense we have made the tabulations given herewith.

The New York Insurance Department report, as now compiled, was used as a standard, and during the past year the figures have again been carefully gone over, and corrections made where necessary, so that the work is as nearly accurate as it is possible to make it, and may confidently be accepted in lieu of the insurance department reports.

CASUALTY, SURETY AND MISCELLANEOUS INSURANCE IN THE UNITED STATES

THE HISTORY AND DEVELOPMENT OF CASUALTY INSURANCE IN AMERICA.

BY EDWIN W. DE LEON, FIRST VICE-PRESIDENT, CASUALTY COMPANY OF AMERICA,
NEW YORK.

The term Casualty Insurance is used to designate the forms of insurance generally known as Liability, Accident, Boiler and Plate Glass. The importance of this branch of the great underwriting family will be readily appreciated when it is stated that for the ten years ending December 31, 1906, the total premiums received from the four groups above named amounted to \$267,913,310. Of this sum, Liability business contributed \$110,239,728, or forty-one (41) per cent; Accident (including Health), \$122,390,754, or forty-six (46) per cent; Boiler, \$16,700,131, or six (6) per cent, and Plate Glass, \$18,582,697, or seven (7) per cent. In the same period losses paid aggregated \$108,579,288, of which amount Liability payments were \$47,805,502, or forty-three and four-tenths (43.4) per cent of premiums received. Accident (including Health), \$51,920,368, or forty-two and four-tenths (42.4) per cent; Boiler, \$1,725,214, or ten and three-tenths (10.3) per cent, and Plate Glass, \$7,128,204, or thirty-eight and four-tenths (38.4) per cent.

LIABILITY INSURANCE.

While Liability Insurance does not take first place, either in point of time during which the business has been transacted, or in volume of premiums written, it ranks first in the great development that it has enjoyed since the first policy was issued in the United States, scarcely more than twenty years ago. Not only so, but it is universally conceded that it is the most difficult, deceptive, early encouraging and later disappointing form of insurance underwriting attempted at the present time. The reasons for this are numerous and intricate, but in a very general way may be summed up in the radical changes that have taken place in manufacturing and contracting operations; in the evolution of the relations of employer and employee, and in the growing sentiment of Federal and State authorities in favor of compulsory compensation for injured workmen.

Until 1887 the liability of employers for injuries suffered by their employees was regulated in the United States by the common law. In that year Massachusetts passed the first employers' liability statute ever enacted in this country, and it has been in successful operation for more than twenty years with certain additions incorporated in the year 1902. Alabama was the next State to legislate on this subject by the passage of an employers' liability act in 1897, similar in terms to the Massachusetts statute. In 1902, New York State followed suit, and since that year, exclusive of laws affecting railroad

companies, employers' liability laws have been enacted by Arizona, Arkansas, California, Colorado, Connecticut, Georgia, Indiana, Iowa, Maryland and Missouri (limited to mine operators), Montana, Nevada, North Dakota, Ohio, Oklahoma, Pennsylvania, Porto Rico, South Dakota, Texas, Utah and Wyoming.

FEDERAL LEGISLATION.

It remained for the Federal Government, however, to attempt legislation regulating the liability of employers in different States by the passage of an Employers' Liability Law in June, 1906, affecting all common carriers in the District of Columbia, the Territories and those engaged in inter-State commerce. This law practically abrogated the "fellow-servant" rule and formulated the doctrine of comparative contributory negligence. Several suits were brought under the act, which was declared unconstitutional by two Federal judges, but was upheld by several others. The United States Supreme Court decided the question finally in January, 1908, by declaring the law unconstitutional. Inasmuch as this law was the first effort on the part of the Federal authorities to regulate the liability of employers to employees, it may be interesting to quote a portion of the opinion of the Supreme Court, which was delivered by Justice White, five judges concurring and four dissenting. After citing the law in full the court said:

In testing the constitutionality of the act, we must confine ourselves to the power to pass it and may not consider evils which it is supposed will arise from the execution of the law, whether they be real or imaginary. * * * *

1. The proposition that there is an absolute want of power in Congress to enact the statute is based on the assumption that, as the statute is solely addressed to the regulation of the relations of the employer to those whom he employs and the relation of those employed by him among themselves, it deals with subjects which cannot under any circumstances come within the power conferred upon Congress to regulate commerce.

As it is patent that the act does regulate the relation of master and servant in the cases to which it applies, it must follow, that the act is beyond the authority of Congress if the proposition just stated be well founded. But we may not test the power of Congress to regulate commerce solely by abstractly considering the particular subject to which a regulation relates, irrespective of whether the regulation in question is one of inter-State commerce. On the contrary, the test of power is not merely the matter regulated, but whether the regulation is directly one of inter-State commerce, or is embraced within the grant conferred on Congress to use all lawful means necessary and appropriate to the execution of the power to regulate commerce. We think the unsoundness of the contention, that because the act regulates the relation of master and servant, it is unconstitutional, because under no circumstances and to no extent can the regulation of such subject be within the grant of authority to regulate commerce, is demonstrable. We say this because we fail to perceive any just reason for holding that Congress is without power to regulate the relation of master and servant, to the extent that regulations adopted by Congress on that subject are solely confined to inter-State commerce, and therefore are within the grant to regulate that commerce or within the authority given to use all means appropriate to the exercise of the powers conferred. To illustrate: Take the case of an inter-State railway train, that is, a train moving in inter-State commerce, and the regulation of which therefore is, in the nature of things, a regulation of such commerce. It cannot be said that because a regulation adopted by Congress as to such train when so engaged in inter-State commerce deals with the relation of the master to the servants operating such train or the relations of the servants engaged in such operation between themselves, that it is not a regulation of inter-State commerce. This must be, since to admit the authority to regulate such train, and yet to say that all regulations which deal with the relation of master and servants engaged in its operation are invalid for want of power would be but to concede the power and then to deny it, or at all events to recognize the power and yet to render it incomplete. * * * *

From the first section it is certain that the act extends to every individual or corporation who may engage in inter-State commerce as a common carrier. Its all-embracing words leave no room for any other conclusion. It may include, for example, steam railroads, telegraph lines, telephone lines, the express business, vessels of every kind, whether steam or sail, ferries, bridges, wagon lines, carriages, trolley lines, etc. Now, the rule which the statute establishes for the purpose of determining whether all the subjects to which it relates are to be controlled by its provisions is that any one who conducts such business be a "common carrier engaged in trade or commerce in the District of Columbia, or in any Territory of the United States, or between the several States," etc. That is, the subjects stated all come within the statute when the individual or corporation is a common carrier

who engages in trade or commerce between the States, etc. From this it follows that the statute deals with all the concerns of the individuals or corporations to which it relates if they engage as common carriers in trade or commerce between the States, etc., and does not confine itself to the inter-State commerce business which may be done by such persons. Stated in another form, the statute is addressed to the individuals or corporations who are engaged in inter-State commerce and is not confined solely to regulating the inter-State commerce business which such persons may do—that is, it regulates the persons because they engage in inter-State commerce and does not alone regulate the business of inter-State commerce. * * * *

So far as the face of the statute is concerned, the argument is this, that because the statute says carriers engaged in commerce between the States, etc., therefore the act should be interpreted as being exclusively applicable to the inter-State commerce business and none other of such carriers, and that the words "any employee" as found in the statute should be held to mean any employee when such employee is engaged only in inter-State commerce. But this would require us to write into the statute words of limitation and restriction not found in it. But if we could bring ourselves to modify the statute by writing in the words suggested the result would be to restrict the operation of the act as to the District of Columbia and the Territories. We say this because immediately preceding the provision of the act concerning carriers engaged in commerce between the States and Territories is a clause making it applicable to "every common carrier engaged in trade or commerce in the District of Columbia, or in any Territory of the United States." It follows, therefore, that common carriers in such Territories, even although not engaged in inter-State commerce, are by the act made liable to "any" of their employees, as therein defined. The legislative power of Congress over the District of Columbia and the Territories being plenary and not depending upon the inter-State commerce clause, it results that the provision as to the District of Columbia and the Territories, if standing alone, could not be questioned. Thus it would come to pass, if we could bring ourselves to modify the statute by writing in the words suggested, that is, by causing the act to read "any employee when engaged in inter-State commerce," we would restrict the act to the District of Columbia and the Territories, and thus destroy it in an important particular. To write into the act the qualifying words, therefore, would be but adding to its provisions in order to save it in one aspect, and thereby to destroy it in another; that is, to destroy in order to save and to save in order to destroy. * * * *

Concluding, as we do, that the statute, whilst it embraces subjects within the authority of Congress to regulate commerce, also includes subjects not within its constitutional power, and that the two are so interblended in the statute that they are incapable of separation, we are of the opinion that the courts below rightly held the statute to be repugnant to the Constitution and non-enforceable; and the judgments below are, therefore, *affirmed*.

PRESIDENT ROOSEVELT AND EMPLOYERS' LIABILITY.

On January 31, 1908, the President sent a special message to Congress, urging the immediate passage of a new employers' liability act, which has since become a law, whereby the Congress of the United States has again attempted to impose upon common carriers engaged in inter-State commerce, or in the Territories, or in the District of Columbia, or in the Panama Canal zone, liability for injury to employees, without, however, fixing any limit of compensation to be recovered in damages. The President has gone still further by recommending "that a comprehensive act be passed providing for compensation by the government to all employees injured in the governmental service. Under the present law an injured workman in the employment of the government has no remedy, and the entire burden of the accident falls on the helpless man, his wife and his young children. This is an outrage. It is a matter of humiliation to the nation that there should not be on our statute books provision to meet and partially to atone for cruel misfortune when it comes upon a man through no fault of his own while faithfully serving the public."

Thus was sounded the first note in America looking to the establishment of workmen's compensation on somewhat the same lines as it now exists in most European countries.

CHILD LABOR AND FACTORY LAWS.

At the present time, child labor laws regulating the age of employment of children in factories, mills and stores are in force in forty-three States, and twenty-eight States have passed laws regulating the age of employment in mines.

Every State now has a factory law, regulating the working hours of employees, providing for the safe-guarding of all dangerous machinery and limiting the age at which minors may work on certain kinds of machines. Congress has taken a hand in this great sociological question by the passage of a bill at the last session, providing that "The Secretary of Commerce and Labor is hereby authorized and directed to investigate and report on the industrial, social, moral, educational and physical condition of woman and child workers in the United States whenever employed, with special reference to their age, hours of labor, term of employment, health, illiteracy, sanitary and other conditions surrounding their occupation and the means employed for the protection of their health, person and mortals." Expositions of safety devices were held in New York and Chicago in 1907, the object of which was to quicken the public mind to the dangers to life and limb existing in the average factory of to-day, and to create a strong sentiment in favor of the adoption of all possible precautions to insure the safety of employees.

The unmistakable trend of public opinion as well as of legislative and judicial action is to impose upon the employer a stricter liability for the well being of his employees almost to the point of making the employer an absolute insurer of their safety when in his service.

FORMS OF LIABILITY POLICIES.

There are various forms of liability policies in general use, known respectively as Manufacturers' Employers' Liability; Manufacturers' Public Liability; Contractors' Employers' Liability; Contractors' Public Liability; General (Landlords') Liability; Teams' Liability; Elevator Liability; Automobile Liability; Vessel Employers' Liability; Vessel Employers' and Public Liability; Theater Liability; Owners' Contingent Liability and Contractors' Contingent Liability. In addition to the foregoing there is a form of indemnity closely allied to liability insurance known as Workmen's Collective that will be explained under this heading.

MANUFACTURERS' EMPLOYERS' LIABILITY.

This form of insurance protects manufacturers against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by an employee or employees while within the factory, shop or yards, or immediately adjacent thereto, and resulting from the business operations of the insured. The premium is based on the total estimated annual compensation of all employees, but it is permissible to exclude the salaries of executive officers not actually directing or superintending; the salaries of office and clerical force, if these employees are not to be covered by the policy; the wages of pieceworkers employed away from the premises, and the wages of drivers and drivers' helpers, if a concurrent teams' policy is carried. At expiration of policy a statement must be rendered to the company by the insured, of the actual compensation earned by all employees covered by the policy, and if this amount exceeds the estimate upon which the policy was issued, the excess premium calculated at the rate named in the policy must be paid to the company. On the other hand, if this amount is less than the estimate, the company will refund to the insured the amount of such difference calculated in the same way, subject, however, to a minimum premium of \$25.00 for every policy.

MANUFACTURERS' PUBLIC LIABILITY.

This form of policy applies to persons other than the employees of the insured, but in all other respects is identical with the Manufacturers' Employers' Liability contract.

CONTRACTORS' EMPLOYERS' LIABILITY.

This form of insurance protects contractors, builders, electric light and power companies, telegraph and telephone and mining companies against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, acci-

dentially suffered by an employee or employees at the locations where work is being done or business operations carried on, and resulting from said work or business operations of the insured. The premium is calculated and adjusted substantially in the same way as for Manufacturers' Employers' Liability, subject to a minimum premium of \$50.00 for each policy.

CONTRACTORS' PUBLIC LIABILITY.

This form of policy applies to persons other than the employees of the insured, but in every other respect is identical with the provisions of the Contractors' Employers' Liability contract.

GENERAL OR LANDLORDS' LIABILITY.

This form of insurance protects owners, lessees or tenants of premises (not manufacturers) against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by any employee or employees, or by any other person or persons while within the premises, or upon the sidewalks or approaches immediately adjacent thereto, and resulting from the business operations of the insured. The premium for the liability to employees is calculated and adjusted in practically the same manner as for Manufacturers' Employers' Liability. The premium for the liability to persons other than employees is based upon the total area and frontage of the premises, and upon the number and kind of elevators to be covered. This form of policy is adapted to the use of apartment houses, cemeteries, churches, clubs, hotels, office buildings, private dwellings, public libraries, public museums and picture galleries, restaurants, retail stores, sidewalks used by hucksters, tenements, vacant land, wharf and water front property, wholesale stores and wholesale and retail stores.

TEAMS' LIABILITY.

This form of insurance protects the owners or users of horses and vehicles against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by an employee or employees, or by any other person or persons by means of the use of such horses or vehicles in the business operations of the insured. The premium is based upon the number of vehicles in use, which is determined by the number of drivers employed by calculating from the total payroll of drivers the average wages per driver. The adjustment of premium at expiration is made in the same manner as for Manufacturers' Employers' Liability.

The hazard of loading and unloading may be included in the policy, in which case an endorsement is used for which an additional premium is charged of from ten per cent to thirty per cent of the original premium.

The premium for vehicles adapted for private use only is based upon the number of such vehicles driven by the insured or any employee. If the policy is to be extended to cover vehicles while in charge of members of the insured's family the premium is based upon the number of horses owned in place of upon the number of vehicles.

AUTOMOBILE LIABILITY.

This form of insurance protects the owners or users of automobiles against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by an employee or employees, or by any other person or persons by means of the use of such automobiles. The premium for business vehicles is based upon the number of drivers employed, and is calculated and adjusted in the same manner as for Teams' Insurance. The premium for private vehicles is calculated upon the number of cars owned and the horse-power of each car, subject, however, to a minimum premium per car regardless of horse-power. No different charge is made for the kind of motive power used as between gasoline, electric or steam.

ELEVATOR LIABILITY.

This form of insurance protects owners or users of elevators against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by an employee or employees, or by any other person or persons while in the elevator car, or while entering upon or alighting therefrom, or caused by the machinery or appliances connected with the elevator. The premium is based on the number and type of elevators to be insured, whether passenger or freight, sidewalk, one-story, factory, hand hoist, private house, escalator or sidewalk chute.

VESSEL EMPLOYERS' LIABILITY.

This form of insurance protects vessel and ship owners against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by an employee or employees while on or about the vessels or on the ways immediately thereto, and resulting from the business operations of the insured. The premium is based on the total compensation earned by the crew, and is calculated and adjusted in the same manner as for Manufacturers' Employers' Liability. If the hazard of collisions is to be included under the policy, an endorsement covering this feature must be attached, for which an additional charge is made. Vessel liability policies are adapted for use of ferry companies, fishing vessels, great lakes, ocean and coastwise steamers, sailing vessels and tugboats—towing, river and sound steamers, sailing vessels and tugboats—towing and water boats, supplying water for shipping.

VESSEL EMPLOYERS' AND PUBLIC LIABILITY.

This form of insurance applies to employees as well as to persons other than employees, excluding passengers, but in every other respect is identical with the Vessel Employers' Liability contract. An additional charge is made on this policy, also for protection against the hazard of collisions.

THEATER LIABILITY.

This form of insurance protects against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by any person or persons while within the premises, or upon the sidewalks, or other ways immediately adjacent thereto. The premium is based upon the total seating capacity in the case of theaters, opera houses and music halls, and upon the total gate receipts in the case of horse shows, dog shows, bicycle shows, automobile shows, agricultural or horticultural shows and baseball grounds.

OWNERS' CONTINGENT LIABILITY.

This form of insurance protects owners of buildings in course of construction against loss by reason of the liability imposed by law for damages on account of bodily injuries, including death, accidentally suffered by any person or persons during the continuance of the work, and resulting from the negligence of any contractor or sub-contractor engaged in the work. The premium is based on the estimated total cost of the work, and is adjusted at expiration of policy according as such actual cost is greater or less than the estimated cost.

CONTRACTORS' CONTINGENT LIABILITY.

This form of insurance protects contractors for buildings in course of construction against loss by reason of the liability imposed by law for damages, on account of bodily injuries, including death, accidentally suffered by any person or persons during the continuance of the work, and resulting from the negligence of any sub-contractor engaged in the work. The premium is based upon a percentage of the estimated cost of the work, less the compensation earned by the employees of the contractor. If the contractor

does no part of the work the premium is estimated upon the total cost of the work. In either case, the adjustment of premium is made in the same manner as under Owners' Contingent Liability.

WORKMEN'S COLLECTIVE INSURANCE.

This form of insurance protects employees against bodily injuries, including death, sustained through external, violent and accidental means while engaged in the occupations and at the places mentioned and resulting from the business operations of the employer. A fixed sum, either one year's wages or one-half year's wages, is paid for death, or for the loss of limbs or sight; one-third of one year's wages is paid for the loss of one hand or one foot; one-eighth of one year's wages is paid for the loss of one eye; one-half weekly wages is paid for temporary disablement, not exceeding twenty-six weeks. The premium is based upon the estimated compensation earned by all the employees not excluded in the policy, and is adjusted upon the actual compensation earned according as such amount is greater or less than the estimate. The policy can be extended at additional cost to cover employees for the entire twenty-four hours and to include full medical and surgical treatment for injuries sustained. This policy is taken out in the name of the employer for the benefit of the employees, and the premium is paid wholly by employees as a rule, although the employer sometimes pays it either partly or in full.

PERSONAL ACCIDENT INSURANCE.

The first accident insurance transaction in America is said to have been a verbal contract entered into between the president of the Travelers Insurance Company, of Hartford, and a resident of that city, whereby in consideration of a premium of two cents the company agreed to be liable in the sum of \$5,000 in case of accident to the assured while going from the postoffice to his home. The first policy was issued by that company shortly afterwards, and agreed in consideration of a premium of two (\$2.00) dollars to protect the assured against loss of life or personal injuries while traveling from Hartford, Conn., to Washington, D. C., and return. These transactions took place about forty-five years ago, since which period the business of accident insurance has grown to be one of the largest and most important branches of underwriting. Originally an accident policy was a contract of insurance against loss of life, limbs, or total disability on account of bodily injuries effected solely by external violent and accidental means. The full amount of the policy was payable in case of death, or loss of both hands, or both feet, or both eyes. Proportionate amounts were payable for the loss of one hand, or one foot, or one eye. For many years the pioneer company held undisputed possession of the field, for while a large number of other companies started, all either failed to make a success or were absorbed by the original company. Gradually, however, new companies entered the field, encouraged by the success of the first comer, until at the present time more than forty companies and associations are engaged in the business of accident insurance in the United States, with premium incomes varying from less than ten thousand dollars (\$10,000) annually to more than three million dollars (\$3,000,000).

Competition brought with it the inevitable broadening of the contract, the first important addition being the inclusion of weekly indemnity, represented by a fixed sum, payable per week during the period of total temporary disability. This was limited at first to twenty-six weeks, but was later extended to fifty-two weeks, then to one hundred weeks, until at the present time the limit is placed at two hundred weeks. The next radical change was the adoption of the combination feature, the natural result perhaps of the progress of civilization and the advancement of science through the introduction of steam, electricity and cable power for common carriers. Under that clause the benefits otherwise payable by the policy were doubled in favor of a passenger injured while riding in a common carrier. Subsequently this concession was extended to include passenger elevators and burning buildings, as well as

vehicles and vessels propelled by motive power of any kind from horse to gasoline and naphtha.

Next came payment of weekly indemnity for partial disability, limited for many years to fifty per cent of the amount stated in the policy, but gradually extended to ninety per cent, dependent upon the extent of the disability and the ingenuity of the claimant in presenting his claim. It was not until the last ten years, however, with the introduction of Health and of Disability Insurance, that the business began to assume the great proportions that it now enjoys. Sickness insurance had been written in many European countries for a number of years previous to 1896, but it was not until about this time that it was successfully attempted in America. At first the insurance here was granted in the shape of a rider to be attached to Accident Policies, and covering about eight diseases. Next came a restricted Health Policy limited to fifteen diseases, then to thirty, then to forty and finally unlimited.

The combination of Accident and Health Insurance under one policy is known as Disability Insurance, and with the adoption of this form of contract the highest development appears to have been reached in the evolution of the business from the modest contract of nearly a half century ago, with its premium of two cents, to the Disability Policy of to-day, insuring, not only the applicant but including without extra cost the beneficiary, to the extent of one-half the limits of the policy for fatal or non-fatal injuries sustained as the result of an accident on a common carrier, or in a passenger elevator, or a burning building; paying indemnity not only for practically every accident or illness that "flesh is heir to," but adding the "Schedule of Operation," giving a fixed sum in addition to weekly indemnity to cover the cost of a surgical operation; the "Schedule of Indemnities," providing for a specified cash amount, payable in lieu of weekly indemnity at the option of the assured, and the "Accumulation Table," under which the principal sum of the policy increases each year, usually ten per cent, until such increase amounts to fifty per cent of the original sum.

Other gratuitous additions that have more recently made their appearance are the old age pension clause, paying a limited sum to the assured for permanent total disability to age 70; insurance upon the children of the assured for small fixed amounts under certain conditions; triple indemnity payments for accidents sustained on steam railroad trains, and the extension of "Accumulation" benefits to the weekly indemnity clause of the policy. As some one has very cleverly said, "The wonderful crop of 'best ever' Accident Policies of the spring of 1908 is the most astonishing on record. Has some new supreme court decision made it safe, or is it the twentieth century version of Ajax defying the lightning? What the harvest will be is one of those problems left to the inscrutability of Providence."

STEAM BOILER INSURANCE.

The first boiler insurance policy issued in America dates back over forty years ago, and by a strange coincidence the first company to engage in the business, as in the case of accident insurance, hailed from Connecticut. For over twenty years this company enjoyed a monopoly of the business, although at the outset the development of this branch of insurance was slow. Steam users failed to appreciate the advantages accruing from the protection offered, and engineers of plants opposed the scheme as an interference with their prerogatives. At first the policy was limited to insurance against loss or damage to the property of the assured, or to property of others, for which the assured might be held liable, due to the explosion, rupture or collapse of the boilers named in the policy. One of the main arguments used to sell the insurance was the fact that the company would make a periodical inspection of each boiler and furnish the assured with a report showing the condition of the boiler. This feature appealed more strongly to manufacturers than the indemnity offered, and it may be considered responsible for the greatest part of the success that has come to the business. In the year 1887 a new company entered the field, and in the natural competition that followed, an important

change was made in the policy through the addition of a clause insuring against loss from legal liability for fatal or non-fatal injuries suffered by any person or persons due to the explosion, rupture or collapse of any of the boilers named in the policy. From that date to the present time the boiler policy has remained practically the same, the principal change being the addition within the last five years of the "Use and Occupancy" contract, insuring against loss of daily profits and income on account of the total or partial destruction of the plant, because of the explosion, rupture or collapse of any boiler. This new feature was originated by the writer, and was first adopted and used by the company with which he is associated. At the present time, however, most of the leading companies have taken it up, and it is certain to prove an indispensable adjunct to the contract of boiler insurance.

For the ten-year period ending December 31, 1906, as we have seen, premiums received in this line amounted to \$16,700,131, and losses paid to \$1,725,214, whereas, in the year 1907, premiums received were \$2,062,086, or one-eighth of the total premiums secured in the previous ten years, indicating the satisfactory growth of the business. On the other hand, losses paid in 1907 amounted to only \$170,948, or 8.5 per cent loss ratio as compared with an average loss ratio of 10.3 per cent for the ten-year period above named. It is only fair to state, however, that the reduction in loss ratio in 1907 is partly due, no doubt, to the fact that two companies entered the field for the first time during the year, and while premiums of about \$50,000 were received, practically no losses were paid. It is unquestionably true, however, that the business is becoming better understood both by the assured and the companies, to the end that the cost of administration is getting down to the most economical basis consistent with efficiency. Steam users are disposed, as a rule, to comply promptly with the recommendations contained in the inspection reports, often to the extent of replacing the boiler entirely. The introduction, furthermore, of automatic safety appliances, the general improvement in the condition of water supply, and the continued education of the assured, the inspectors and the heads of inspection departments along lines of prevention of explosions, all tend to encourage the underwriters of boiler insurance to look forward to a considerable increase in premiums and a material reduction of losses in the future.

FLY-WHEEL INSURANCE.

This branch of Casualty Insurance is one of the latest comers in the field and is an outgrowth of Boiler Insurance. The contract covers loss or damage to the property of the assured, or to property of others for which the assured may be liable; also the liability of the assured for loss of life or bodily injuries sustained by any person or persons caused by the explosion, bursting or disruption, during rotation, of any of the fly-wheels named in the policy.

For a number of years one company alone transacted this form of insurance, but at the present time four companies are engaged in the business, although the total premium income is still comparatively small, and statistics are, therefore, limited.

The premium is based upon the number, kind and diameter of the fly-wheels and the amount of insurance applicable to one loss; but, as yet, the rates are more or less in the experimental stage, and the business has shown no profit for the entire period, although the experience seems to be improving.

In 1907 the Use and Occupancy contract was extended to Fly-Wheel Insurance, covering loss of daily profits or income from the total or partial destruction of the plant, due to the explosion, bursting or disruption of any of the fly-wheels named in the policy. This has given considerable impetus to the business, and, furthermore, it is becoming generally known that more fly-wheels burst in the course of a year than boilers explode, with a greater resulting damage to property as a rule.

For this reason it is fair to assume that the development of fly-wheel insurance in the next decade will be more rapid and extensive than that of boiler insurance in the last decade, and that within a reasonable time these two branches of casualty business will run along on a substantially equal footing, as regards income at least.

PLATE GLASS INSURANCE.

New Jersey claims the distinction of being the home of the first American company to write Plate Glass Insurance. This was in 1868, exactly forty years ago, although it was not until the first New York company was organized in 1874 that the business showed much substantial progress. Since that time a number of companies have entered the field, and the volume of premiums has steadily increased, although the policy contract has remained practically the same. Plate Glass Insurance provides indemnity for loss or damage to the glass insured caused by accidental breakage, due to causes beyond the control of the assured. The policy does not cover loss or damage resulting directly or indirectly from fire, earthquake, floods, riot, insurrection or any military or usurped power, from the blowing up of buildings or from alterations or repairs to the premises named in the policy. For many years the insurance was limited to plain plate glass, but with the evolution of business methods came the introduction of various other kinds of glass, such as bevelled, mitred, leaded, cathedral, chipped, bent, florentine, jeweled, ribbed and wired glass, until at the present time every large store or building has one or more of the various kinds mentioned, to be surveyed and insured.

The real troubles of plate glass underwriters did not develop, however, until the advent of clamped or patented glass in the year 1900. This was an absolutely new proposition, and consisted of riveting the glass at the sides and tops and dispensing entirely with wooden frames. The rates promulgated at first soon proved to be totally inadequate, and were continually advanced until the insurance of patented glass became as much of a luxury to the companies as a necessity to the assured. Gradually, however, the use of various kinds of patented glass has become general, even in small towns, and, while the rates are still more than double the charge for plain plate, the earlier difficulties have been largely overcome and the experience is steadily improving. At the present time fifteen stock companies are transacting plate glass insurance in addition to numerous local mutual companies.

The premium income for 1907 of the stock companies was \$2,799,746, and the losses \$1,170,484. As was noted at the beginning of this chapter, the total premiums received for ten years ending December 31, 1906, amounted to \$18,582,697, and losses to \$7,128,204, or a loss ratio of 38.4 per cent, and while the income for the past year was one million dollars in excess of the average annual income for ten years previously, the losses paid exceeded the annual ten-year average by fifty per cent, indicating that while the business is developing rapidly, the losses are keeping pace therewith. On the whole, however, plate glass insurance may be considered a well-developed member of the Casualty Insurance family.
